About the eBBT Symposium

The eBBT symposium focuses to bring together a group of researchers/faculties/experts from academia and industry working in interdisciplinary areas of biosciences and biomedical engineering to discuss recent progress in these areas as well as share ideas on open questions. The scientific program will witness an interesting display of dynamic talks, exhibitions, industry academia interactions and an interactive poster session. We encourage participation by students, postdocs, faculty in their early career and industry professionals to explore networking opportunities.
